

## Mission Statement

Wednesday, 19 December 2007

Football Club New York, commonly known as F.C. New York, is designed to function as an organization that provides children, adolescents and adults with the opportunity to experience an advanced, highly competitive soccer environment. F.C. New York incorporates the development of both individual technical skills and soccer intelligence into it's training program, while still stressing the vital aspects of team participation, camaraderie, and personal enjoyment. The club fosters an environment of mutual respect and works at developing and nurturing self-confidence and sportsmanship within it's players. As a member of F.C. New York, it is the player's commitment and responsibility to strive for excellence both on and off the field. As soccer is the world's sport, F.C. New York stresses the fact that every member of the club is, in essence, a global citizen, and appreciation for all cultures, races and religions should be one's first priority.
